

# Xsell Products, Inc.

Xsell Products represents complimentary products in the Power Transmission and Motion Control industries. We are currently representing the following companies:

[www.theadamscompany.com](http://www.theadamscompany.com)

Open Gearing and Custom Shafts.

[www.mblusa.com](http://www.mblusa.com)

V-Belts, Timing Belts, HTD Belts, Gates GT Belts.

[www.centa.info](http://www.centa.info)

Flexible Couplings and Drive Shafts for Industrial and Marine Applications.

[www.orttech.com](http://www.orttech.com)

Clutches and brakes. Hydraulic, Pneumatic, Mechanical, Electro-Magnetic, Linear. Custom, large torque and size capabilities.

[www.climaxmetal.com](http://www.climaxmetal.com)

Set Collars, Shaft Couplings and Keyless Locking Devices.

[www.ptintl.com](http://www.ptintl.com)

Mounted and open bearings, Combination Bearings and Systems, Timing Pulleys, Rod Ends and metric components.

[www.diequa.com](http://www.diequa.com)

Servo and Basic Reducers, Precision Couplings, and Lifting Systems.

[www.slidotech.net](http://www.slidotech.net)

Low Friction Linear Guides, Screws, and Surfaces.

[www.exlar.com](http://www.exlar.com)

High Force Electrical Actuators, Planetary Roller Screws, Belt Actuators, Integrated Rotary and Linear Actuators, and Valve Actuation.

[www.sci-couplings.com](http://www.sci-couplings.com)

Gear couplings, elastomeric couplings, custom machining, large scale machining and grinding.
